

# Let Us Give You A Brand New Smile!

**Cosmetic Teeth Whitening  
in One 20 Minute Session**

Affordable  
Comfortable  
Effective

THE **WOW** SMILE

**Would you like to have whiter, brighter teeth and a more confident smile?**

Ask us about the WowSmile Cosmetic Teeth Whitening System.

**How does the WowSmile lighten your teeth?**

It uses blue LED light in combination with carbamide peroxide gel.

**How long does the treatment take?**

One 20 minute session is all that is required for most teeth.

**Is the treatment comfortable?**

Yes, you will experience minimal sensitivity.

**Will I have discomfort afterwards?**

No. The WowSmile is not like other teeth whitening systems that use hydrogen peroxide and often cause pain days after the treatment.

**What results can I expect?**

Most people will see their teeth lighten by as much as 3 – 6 shades in one 20 minute treatment.

**How often do I need to have The WowSmile treatments done?**

Just as with more expensive dental office procedures, it is recommended that you schedule a treatment every six months to keep Your smile bright and new.

**Only \$99**
